Chris Boyd, Medicine Lodge (South-central District)  
Rich Falkenstien, Oswego (East District)

## About this Directory

The seed producers listed in this directory have applied to the Kansas Crop Improvement Association (KCIA) for inspection of seed production fields. KCIA checks all seed sources to confirm seed eligibility.

Seed produced on these fields is not Certified or Quality Assured until the field has passed inspection and the harvested seed has been properly conditioned, sampled and tested.

Seed meeting certification standards is issued a Certificate of Inspection and may be sold as Certified Seed. Quality Assured seed must meet similar standards.

Kansas Seed Law requires all seed to be properly labeled. The label is your warranty. Each bag of Kansas Certified Seed must be labeled with an official KCIA certification tag.

A completed KCIA Bulk Retail Sale Certificate or Bulk Invoice Label must accompany each bulk sale. Contact KCIA regarding the specific rules for re-selling bulk Certified Seed.

KCIA does not produce, process, buy or sell seed; therefore, assumes no financial responsibility regarding any seed listed herein.

Growers guarantee that Foundation, Registered, Certified or Quality Assured seed sold by them conforms to the standards of the Association in origin, varietal purity and quality. KCIA should be advised of any complaints made to the producer or vendor of seed.

Listing of a producer does not imply that all requirements have been met at time of publishing. Contact KCIA if you have concerns or questions about seed offered as Certified or KCIA Quality Assured.

## Plant Variety Protection

The Plant Variety Protection Act (PVPA) makes it possible to protect plant varieties by law. Therefore, it is unlawful to sell, offer for sale or expose for sale, uncertified seed by variety name when it is a variety for which a Certificate of Plant Protection has been issued, specifying sale only as a class of certified seed.

It is the responsibility of the grower to inform the purchaser that a variety is protected and at what level. This may be accomplished on the label by the appropriate statements. The status of varieties listed in this directory is as follows:

## PVP Status\* – Small Grains \*\*As of July 5, 2024

### \*Important:

- Additional licensing and/or marketing restrictions may apply.
- New varieties with a PVP Level 0, 1, 2, or 3 may be updated to a different level in the future.
- List does not include all varieties found in the marketplace. For varieties not listed or status updates please contact the genetics provider or the KCIA office.

## BLUE RIBBON TRITICALE

Whether you're looking for a hay, silage or graze-out triticale variety or blend, we have an award-winning solution to your forage need. At 21.7, 21.8, & 22.7 tons per acre, ThunderTall™ & Thunder Tall II™ topped the NMSU irrigated dairy variety trials. For grazing, reputation cattlemen say ThunderGraze Extra™ has doubled their production. Our triticale won the Kansas State Fair! See us for ThunderCale™ and the complete Thunder™ brand of triticale and rye.

From farmer to consumer, OGI varieties are proven performers every year. Our wheat varieties provide the quality characteristics end-users and consumers desire, and they provide the agronomics wheat producers require. We strive to create diverse, high-quality and resilient wheat varieties that the entire wheat foods chain can trust and rely upon.

Your Road To Profit Begins  
With Quality Seed

F & J Farms  
Goodland, Kansas

Schields seed plant north of Goodland, Kansas

• Quantity & Early Order Discounts Available • Seed Treatment Options •

Fred and Jeanie Schields, and with their daughter Tiffany Mathias, have been in the seed business for nearly 45 years. Each year they produce and analyze several varieties on their farm to see how they will perform for farmers in Western Kansas, Nebraska, and Eastern Colorado. At Harvest Moon, you'll find one of the largest selections anywhere of the highest performing varieties for the Western High Plains.

With today's input costs, you don't want to short your farm yields by planting "bin run" seed that lacks in hybrid vigor. Certified and Registered seed from Harvest Moon, Inc., will assure you're getting top quality at very affordable prices — high test weight, free of weed seed, high germination, and genetically pure. Let us assist you in your wheat variety selection that helps lower risks, improve yield and in return, will increase your profitability.

## HIGHER YIELDS START WITH HIGHER QUALITY SEED

High Yield Record

Good Fall Forage Potential

Very Good Stripe Rust Resistance

Outstanding Mill and Bake Quality

Built for the High Plains

Western Kansas Top 3 Year Ave. 107%

Very Winter Hardy

Very Good Rust Tolerance

Excellent Disease and FHB Tolerance

105% Yield - 6 Yrs. - 83 University Trials

Consistent - 87% Plots over 97% Yield

"The Outstanding Variety of the Year (2023)" - Kansas Wheat

2024 Release - 8 KSU/UNL Wins - 106% Ave.

Wide Geographic Adaptation Area

Great Agronomic and Disease Package

Consistent - 91% Univ. Trials over 97% Yield

Uncleaned

Cleanout

The combination of the air screen cleaner, length grader, gravity table, color sorter and magnets removes impurities, including white caps, that can plug air seeders and reduce yield.

# PRECISION SEEDING EVERY PASS

## ENGINEERED TO OPTIMIZE YIELDS THROUGHOUT THE HIGH PLAINS

Many producers are making the switch to Landoll quality with the versatility to precisely plant high yielding primary crops. The Landoll 5000 Series Drills are known for superior seeding accuracy in rolling ground typically found on the plains. Achieving record yield requires the accuracy of the exclusive Fluted Seed Meter and the industry's first Pneumatic Down Pressure opener system. From 10' through 50' widths, the ruggedly built Landoll 5000 Series Drills deliver box drill affordability with unmatched high plains standability.
