Bulk Invoice Label (BIL)

The BIL is essentially a regular label that is missing the weight and is therefore an incomplete label according to seed law. It is used for bulk sales and becomes a complete, legal label once attached to an invoice or scale ticket listing the weight.

BIL are specific to a seed lot and are ordered within the dashboard, printed by KCIA and mailed or shipped to facility.

Pros – convenience

Cons – Seed lot specific. If seed lots are consolidated, which creates a new seed lot, new labels or additional inventory sheet is required to track seed.

- Cost – label, printing and shipping costs apply.

Amount sold is recorded by entering amount in lot tracking.
